

Update 3/10/2021

CRWSD RESPONSE TO COVID-19

Water is Safe

Cedar River Water & Sewer District's water supply from Seattle Public Utilities continues to be safe and reliable. Below is an excerpt from the Seattle Public Utilities' website:

Seattle's drinking water remains safe and protected against contaminants, including COVID-19 caused by the novel coronavirus. The City's water is chlorinated to remove microbial contaminants, such as bacteria and viruses. The water is also treated to remove and inactivate microbial contaminants such as chlorine-resistant Cryptosporidium.

Office Closed to Public

As of Thursday March 19, 2020 - The District office is temporarily closed to the public for general business in order to reduce the risk of exposure. Essential business functions may be conducted by appointment only provided attendees do not exhibit symptoms of the virus.

Do Not Flush Disinfection / Sanitizing Wipes

A strong reminder that flushing anything other than bodily waste and toilet paper down the toilet can clog the District's sewer pumping facilities. Please dispose of all used wipes in the garbage.

Temporary Customer Assistance with Past Due Accounts
